Test Cases

High Level:

Check to see if draw button displays all player cards
Check to see if user can select a player from the cards
Check to see if refresh button resets the score

Low level:

Check to see if win/losses are displayed accurately
Check to see if display all players works

Bug Report:

Description: Refresh button on page
Steps to reproduce: Navigate to the top left of browser, click on the refresh icon
Expected Result: the page should reset the count of wins & losses 0/0
Actual Result: Losses count remains as before, wins do not appear

Description: Wins Count display
Steps to reproduce: Select your two players and click on duel afterwards.
Expected Result: Winning duel should increase win count by one & losses should remain as before
Actual Result: Winning count does not increase, loss goes up instead
